

## PACE Telematics Now Provides Mobile Payment at 135 Avanti and 88 DISKONT Locations

**Karlsruhe/Vienna, 08.08.2024** – PACE Telematics, the leading provider of mobile payment solutions in the European fuel station market, is expanding the PACE ecosystem to include the Avanti and DISKONT self-service fuel station networks. Customers can now pay their fuel bill quickly and easily at 135 Avanti and 88 DISKONT locations directly at the pump using the PACE Drive app. PACE Telematics is now available at a total of 650 gas station locations, including 200 OMV gas stations, throughout Austria.

With the integration of 135 Avanti and 88 DISKONT locations into the PACE ecosystem, mobile payment via the PACE Drive app is now also possible at Austrian self-service fuel stations. This means that customers can not only refuel around the clock and at slightly lower prices than at manned stations, but also benefit from the innovative advantages of the PACE Drive app. Users can choose from a variety of payment options that go beyond the traditional methods available at self-service fuel stations. Furthermore, mobile payment eliminates the need to go to the machine for a printed receipt. Digital receipts are available immediately after the transaction in the PACE Drive app and are also sent via email. With digital storage, users no longer need to worry about lost or damaged receipts, and there's no need to reprint receipts from the fuel station operators' websites.

Avanti has stood for high fuel quality at a permanently low price in Austria since 1972. With the integration of the PACE Drive app, Avanti is expanding its existing offering for mobile customers by adding an innovative payment option at all 135 self-service fuel stations.

Payment via the PACE Drive app is now also possible at all 88 DISKONT gas stations in Austria.

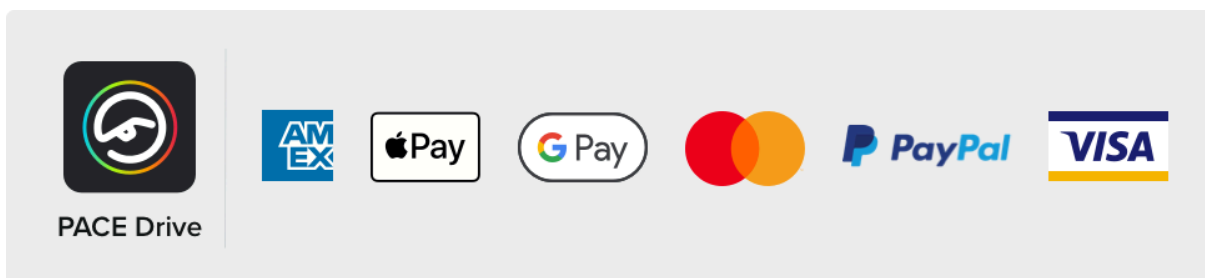

This cooperation underscores the motto of self-service fuel stations: "simple, fast, and affordable", making it especially helpful for evening or nighttime trips – both for travelers and local residents.

**The in-app payment process is quick and easy:**

1. Once users arrive at the desired fuel station, they select their preferred fuel pump.
2. They fill up as usual and authorize the transaction using their preferred payment method.
3. The journey continues. Receipts are archived in the app and sent via e-mail.

Thanks to a two-stage authorization process and data encryption, data security is guaranteed at all times.

The PACE Drive app is available free of charge from the Google Play Store and the Apple App Store and can be used on the smartphone, smartwatch and via Apple CarPlay and Android Auto directly in the vehicle. It supports a variety of payment methods, including AMEX, Apple Pay, Google Pay, Mastercard, PayPal and VISA. Users can enter their preferred payment methods during registration and use them directly in the app.

**About PACE Telematics & Connected Fueling**

The open Connected Fueling platform, operated by PACE Telematics (Karlsruhe, Germany), enables seamless mobile payment directly at the fuel pump through a uniform, cost-saving integration of all partners with the Connected Fueling cloud system. The independent platform is open to all petroleum companies, service station operators, fuel card issuers and POS system providers. Additionally, the platform offers automobile manufacturers and app developers flexible interfaces and easily integrable Software Development Kits (SDKs) to incorporate the mobile payment functionality into their systems. For more information, please visit [www.connectedfueling.com](http://www.connectedfueling.com).

**About Avanti**

Avanti was founded in 1972. OMV took over the existing gas station network in 2003 and opened the first Avanti self-service fuel station in 2009.

At every Avanti self-service station, diesel and Super 95 are available at a permanently low price with guaranteed high fuel quality (in accordance with ÖNORM EN 590 and ÖNORM EN 228). Refueling is possible around the clock at almost all stations (except stations with legally mandated opening hours). Payments can be made directly at the pump using a debit card / Maestro, MasterCard, VISA, V Pay, Diners Club, DKV, OMV Card with ROUTEX function, ROUTEX, Apple Pay and PACE Drive App. Avanti operates 135 self-service fuel stations throughout Austria and is constantly expanding its network of fuel stations.

**About DISKONT**

Since the opening of the first gas station in 2009, DISKONT has stood for quality fuels (in accordance with ÖNORM EN 590 and ÖNORM EN 228) at DISKONT prices. Refueling is possible around the clock at almost all locations (except for stations with legally mandated opening hours and winter opening hours). Payment at the self-service stations is simple and convenient, using a debit card, credit card, DKV Card, OMV Card with ROUTEX function and via the PACE Drive app. There are now 88 DISKONT self-service fuel stations throughout Austria.
